

REETI GANDHI

Product Designer · UI / UX Designer

reetigandhi1997@gmail.com | +91 79764 04737 | [LinkedIn](#) | [Portfolio](#) | [Behance](#)

PROFESSIONAL SUMMARY

Research-driven Product Designer with 3+ years of experience designing AI-powered health products, gamified museum experiences, and enterprise interfaces. Proven track record of converting user research and funnel data into measurable outcomes. Background in architecture informs a systems-thinking approach to UX strategy, design systems, and interaction design.

WORK EXPERIENCE

Product Designer · [Curelink](#) Jul 2025 – Mar 2025

Gurugram, Haryana, India

- ▶ **Onboarding:** Designed end-to-end onboarding experience for Disha AI from scratch, driving a 4× increase in first-time user conversion (20% to 80%).
- ▶ **Chat & Calling:** Designed chat and voice calling systems enabling real-time user-coach interaction, building user trust and contributing to 5x increase in daily active users.
- ▶ **Subscription Flow:** Designed subscription paywall and checkout journey from scratch, increasing daily subscription payments by 2x and reducing friction for Tier 2 and Tier 3 city users.
- ▶ **Profile & Health Plans:** Designed profile section with personalized meal plans, workout routines, and health protocols, improving user comprehension and reducing repetitive support queries.
- ▶ **Design System:** Built Disha's complete design system from scratch, 50+ reusable components, ensuring visual consistency across 15+ screens and accelerating dev handoff.

UX Designer · [Tagglabs](#) Jun 2024 – Jul 2025

Gurugram, Haryana, India

- ▶ **PM's Museum:** Designed interactive, gamified experiences simplifying complex transport-network concepts for 100,000+ annual visitors across diverse age groups and literacy levels.
- ▶ **Supreme Court Museum:** Developed exhibition and digital design concepts narrating India's constitutional journey - balancing historical accuracy with accessible, engaging storytelling.
- ▶ **Rapid prototyping:** Delivered high-fidelity prototypes and interaction specs for 5+ museum installations within tight government-contract timelines.

UX Research Intern · [LID, IIT Roorkee](#) Jan 2024 – Jun 2024

- ▶ **Accessibility framework:** Developed a structured, research-backed framework for inclusive and accessible digital interfaces, grounded in WCAG standards and primary user studies.
- ▶ Conducted 20+ user interviews and synthesised findings into actionable design guidelines adopted by the lab.

UI/UX Designer · [Root Info Solutions](#) Nov 2021 – Jul 2022

- ▶ Designed web and mobile interfaces for 8+ client projects, translating business requirements into intuitive user flows and high-fidelity mockups in Figma.
- ▶ Collaborated directly with clients to gather requirements and iterate on designs, achieving a consistent on-time delivery rate.

Architectural Designer · AGDC Group *Aug 2020 – Oct 2021*

- Designed architecture and interiors for residential, retail, and commercial projects — developing a human-centred design mindset that now informs every UX decision.

EDUCATION

M.Des | Product & Communication Design *2022 – 2024*

National Institute of Fashion Technology (NIFT), Gandhinagar

B.Arch | Bachelor of Architecture *2015 – 2020*

Jai Narain Vyas University, Jodhpur

SKILLS

Design & Research: User Research, Wireframing, Prototyping, Usability Testing, Information Architecture, Interaction Design, UX Writing, Visual Design, Design Systems

Tools: Figma, Framer, Adobe Photoshop, Adobe Illustrator

Soft Skills: Stakeholder Collaboration, Cross-functional Communication, Product Thinking, Data-informed Decision Making
